

## Release 1.17 Mar. 2021 Summary Changes based on BA and STA Requests.

### Highlights

- Fix Reset Match Issues so option works as intended
- Provide drop down pick list for entries
- Order the import team lists

### Details

- Unable to link to under-age players: error message appears saying parental consent is required, but no opportunity is given to the user to enter guardian details. Fixed.
- Fix rounding issue with MYOB report. Payment totals are being incorrectly calculated due to a rounding error. Fixed.
- Auto-mapping should ignore extra mapping values in the 9000 range. Fixed.
- Mandatory position validation is stopping members being linked as players. Fixed.
- Reset-match functionality appears to no longer work. Fixed.
- Rename the 'Next' button in the competition add/edit forms to 'Save & Continue'.
- Improve the distribution of byes when generating a knockout, so that top-half and bottom-half receive equal number of byes.
- Allow a logged-in member to book for an event from within BowlsLink.
- When listing fixtures, order matches using section, round, and match date/time ascending. Currently, match dates are ignored.
- Add support for copying events.
- Add support for exporting event bookings.
- Prohibit free-text entry for a player's nominated club on competition entries. Entrants must select from a list of clubs registered in the system. Excludes competition organisers, who can continue to enter free-text if required.
- Implement a log-in/sign-up workflow for guest bookings. Prompt a guest to sign-in prior to booking if it appears they exist as a BowlsLink member. Prompt a guest to create a BowlsLink account after a successful booking.
- Order the import-teams selection drop-down. Currently, when opting to import teams, the selection drop-down displays previous matches in no particular order. Previous matches are to be displayed in reverse chronological order.
- Implement Played Matches Per Member report. To be made available in the 'Reports' sub-section of Competitions.
